

As a gym, you win
when the **client wins.**

BodySpec mobile clinics
deliver the data and
insights clients need to
make real progress, fast.

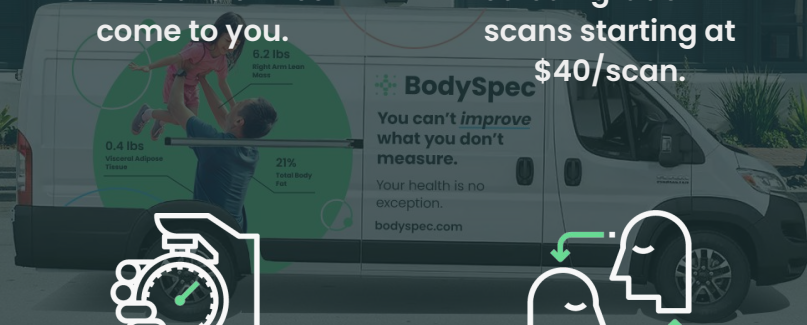

Elite organizations
use BodySpec to
level up their training
and performance.
Bring this excellence
to your members too.

Our mobile clinics
come to you.

Medical-grade DEXA
scans starting at
\$40/scan.

In and out in <15
mins, and shorter
than your coffee
break.

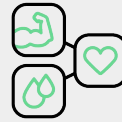

Scans come
with a free 1:1
consultation
to review results.

Our body composition reports allow people to truly **measure the progress and results** of their efforts.

Visceral fat is the dangerous “hidden” or “belly” fat that surrounds the internal organs.

Lean mass includes muscle mass, organs, blood, tendons and ligaments, bone marrow, free water, and undigested food.

Bone density quantifies your fracture risk and lets you compare bone strength against a national population.

Body fat percentage is the amount of fat in your body as a percentage of your total body weight.

...and more!

Out of 100 people
who scan:

84 Try a fitness service
(gym, fitness class, etc.)

70 Are more mindful of their
diet and/or exercise

57 Improve their exercise
or nutrition

Kim Kardashian Gets a Full Body Scan, Shares Her Bone Density and Body Fat Results: 'Athlete Category'

By Miranda Smith August 4, 2022

David Fisher/Outdoors

Comment f t

Testing out the latest health trends! In **Kim Kardashian's** ongoing pursuit to live her best and healthiest life, she recently underwent a full body scan to learn more.

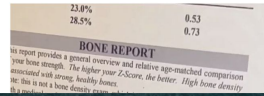

Hello, Curves! **Kim Kardashian's** Body Evolution Through the Years >

"Look who pulled up," the **SKIN** founder, 41, captioned a Wednesday, August 3, Instagram Story snap of a Body Spec van. "They measure your bone density to body at percentage to all the good stuff to make sure you are fit and healthy."

Kardashian took fans inside the van, showing off the equipment before getting her results less than seven minutes after the test. The **SKIMS** mogul — who shares children North, 5, Saint, 6, Chicago, 4, and Psalm, 3, with ex-husband Kanye West — went on to marvel at her results.

Kim Kardashian's Candidness About Her Weight, Diet Through the Years >

"You hear that!!!!!! My bones [are] stronger than 93-97% of people," Kardashian said on Wednesday, noting her bone density "Z Score" was 1.3.
